RULES

Once you have entered the room, the door will close behind you. You will then have 45 to 60 minutes to find clues and solve puzzles to complete the experience. If after 60 minutes you have not been successful, we will return you to the lobby. At any point and for any reason during the game, you may leave the room.

Inside of the escape room, nothing needs to be broken, climbed on, or forced open. Any object that is deliberately broken or removed from the room will be charged to the group. Do not remove anything from the rooms including clues or keys when you exit the room. The ceiling, flooring and wall coverings do not need to be removed in the room. There is no need to lift heavy objects. If we observe any potentially risky or unruly behavior, we will enter the room and stop the game. We reserve the right to use all video, photos and images from your visit.

Personal belongings (including **cell phones**) must be stored in the bins inside of the room for the duration of the game. While inside the room, absolutely no recording or taking pictures inside of the escape rooms is permitted by participants. However, we do welcome pictures and team celebrations in the lobby area before and after the event.
